

Unearthed Arcana: Ranger & Rogue

Playtest Material

The material here is presented for playtesting and to spark your imagination. These game mechanics are in draft form, usable in your campaign but not refined by design iterations or full game development. They are not officially part of the game. For these reasons, material in this column is not legal in D&D Adventurers League events.

Ranger Archetypes

At 3rd level, a ranger gains the Ranger Archetype feature. Here are new options for that feature: the Horizon Walker and the Primeval Guardian.

The UA Ranger

If you're playtesting the Unearthed Arcana ranger, you can use these subclasses with it if you make one addition: give each subclass the Extra Attack feature.

Extra Attack. Beginning at 5th level, you can attack twice, instead of once, whenever you take the Attack action on your turn.

Horizon Walker

Rangers of the Horizon Conclave guard the world against threats that originate from other planes. They seek out planar portals and keep watch over them, venturing to the outer and inner planes as needed to defeat threats.

Planar Magic

Starting at 3rd level, you learn an additional spell when you reach certain levels in this class, as shown in the Horizon Walker Spells table. The spell counts as a ranger spell for you, and it doesn't count against the number of ranger spells you know.

Horizon Walker Spells

Ranger Level	Spells
3rd	<i>protection from evil and good</i>
5th	<i>alter self</i>
9th	<i>protection from energy</i>
13th	<i>banishment</i>
17th	<i>teleportation circle</i>

Planar Warrior

At 3rd level, you learn to draw on the energy of the planes to augment your attacks.

As a bonus action, choose one creature you can see within 30 feet of you. Until the end of this turn, your attacks against that creature ignore its damage resistances, and the next time you hit it on this turn, it takes an additional 1d6 force damage.

Portal Lore

At 3rd level, you gain the ability to detect the presence of planar portals. As an action, you detect the distance and direction to any planar portals within 1,000 feet of you. You also sense which plane of existence each portal leads to. However, if magic obscures any details of a portal, this feature doesn't reveal them.

Once you use this feature, you can't use it again until you finish a short or long rest. Alternatively, you can use the feature again if you expend a spell slot of 2nd level or higher.

See the "Planar Travel" section in chapter 2 of the *Dungeon Master's Guide* for examples of planar portals.

Ethereal Step

At 7th level, you learn to step through the Ethereal Plane. As a bonus action on your turn, you can cast the *etherealness* spell with this feature, but the spell ends at the end of the current turn. Once you use this feature, you can't use it again until you finish a short or long rest.

Distant Strike

At 11th level, you gain the ability to step between the planes in a blink of an eye. When you use the Attack action, you can teleport up to 10 feet before each attack. You must be able to see the destination of the teleportation.

If you attack at least two different creatures with the action, you can make one additional attack with it against a third creature.

Spectral Defense

At 15th level, your ability to move between planes becomes even more finely tuned. As a reaction when you take damage, you can halve that damage against you. For a moment, you slip into the planar boundary to lessen the harm.

Primeval Guardian

Rangers of the Primeval Guardian Conclave follow an ancient tradition rooted in powerful druidic magic. These rangers learn to become one with nature, allowing them to channel the aspects of various beasts and plants in order to overcome their foes.

These rangers dwell in the elder forests of the world. They venture out only rarely, as they consider it their sacred duty to protect the druidic groves and ancient trees that saw the earliest days of the world.

Guardian Magic

Starting at 3rd level, you learn an additional spell when you reach certain levels in this class, as shown in the Primeval Guardian Spells table. The spell counts as a ranger spell for you, and it doesn't count against the number of ranger spells you know.

Primeval Guardian Spells

Ranger Level	Spells
3rd	<i>entangle</i>
5th	<i>enhance ability</i>
9th	<i>conjure animals</i>
13th	<i>giant insect</i>
17th	<i>insect plague</i>

Guardian Soul

Starting at 3rd level, you gain the ability to temporarily grow and take on the appearance of a treelike person, covered with leaves and bark. As a bonus action, you assume this guardian form, which lasts until you end it as a bonus action or until you are incapacitated.

You undergo the following changes while in your guardian form:

- Your size becomes Large, unless you were larger.
- Any speed you have becomes 5 feet, unless the speed was lower.
- Your reach increases by 5 feet.
- You gain a number of temporary hit points at the start of each of your turns. The number equals half your ranger level. When the form ends, you lose any temporary hit points you have from it.

Piercing Thorns

At 3rd level, your command of primal magic allows you to enhance your attacks with thorns. Once during each of your turns, you can deal an additional 1d6 piercing damage to one creature you hit with a weapon attack.

Ancient Fortitude

At 7th level, you can channel the endurance of the ancient forests. When you assume your guardian form, you can increase your hit point maximum and current hit points by 2 per ranger level. This increase lasts until you leave the form; your hit point maximum then returns to normal, but your current hit points remain the same, unless they must decrease to abide by your hit point maximum.

Once you use this feature, you can't use it again until you finish a short or long rest.

Rooted Defense

At 11th level, you gain the ability to twist and turn the ground beneath you. While you are in your guardian form, the ground within 30 feet of you is difficult terrain for your enemies.

Guardian Aura

Starting at 15th level, your guardian form emanates a magical aura that fortifies your injured allies. When any ally starts their turn within 30 feet of your guardian form, that ally regains a number of hit points equal to half your ranger level. This aura has no effect on a creature that has half or more of its hit points, and it has no effect on undead and constructs.

Roguish Archetype

At 3rd level, a rogue gains the Roguish Archetype feature. Here is a new option for that feature: the Scout.

Scout

You are skilled in woodcraft and stealth, allowing you to range ahead of your companions during expeditions. Rogues who embrace this archetype are at home in the wilderness and among barbarians and fighters, as they serve as the eyes and ears of war bands across the world. Compared to other rogues, you are skilled at surviving in the wilds.

Survivalist

When you choose this archetype at 3rd level, you gain proficiency in the Nature and Survival skills. Your proficiency bonus is doubled for any ability check you make that uses either of those proficiencies.

Skirmisher

Starting at 3rd level, you are difficult to pin down during a fight. You can move up to half your speed as a reaction when an enemy ends its turn within 5 feet of you. This movement doesn't provoke opportunity attacks.

Superior Mobility

At 9th level, your walking speed increases by 10 feet. If you have a climbing or swimming speed, this increase applies to that speed as well.

Ambush Master

Starting at 13th level, you excel at leading ambushes. If any of your foes are surprised, you can use a bonus action on your turn in the first round of the combat to grant each ally who can see you a +5 bonus to initiative that lasts until the combat ends. If the initiative bonus would increase an ally's initiative above yours, the ally's initiative instead equals your initiative.

Each of the allies also receives a 10-foot increase to speed that lasts until the end of the ally's next turn.

Sudden Strike

Starting at 17th level, you can strike with deadly speed. If you take the Attack action on your turn, you can make one additional attack as a bonus action. This attack can benefit from your Sneak Attack even if you have already used it this turn, but only if the attack is the only one you make against the target this turn.
